Rows of the five tokens

Approval and non-zero Transfer logs, 1 April 2025 to 30 September 2026

1,240,275,042 rows of WETH, USDC, USDT0, ARB and WBTC

603,475,784 with a contract at both ends: only these can make an edge

Addresses named by the rows

25,537,280 addresses other than the zero address

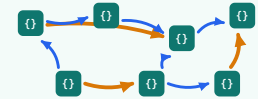

17,477,779 sent a transaction: user accounts

6,230,270 could still end an edge between contracts; read with `eth_getCode` at one block

no code, EIP-7702 accounts, Safes, ERC-4337 accounts: user accounts too

1,829,719 contracts

Contract graph

1,403,959 contracts over both freezes

allowance

transfer

No user account is a node.
